SUMMARY

6th-semester Informatics Engineering student and **Bakti BCA Scholarship Awardee** specializing in Data Science and Artificial Intelligence. Currently serving as an Intern Strategist at Maybank and honing applied data science capabilities through the DBS Coding Camp. Experienced in building interactive financial dashboards, optimizing data-driven tools, and deploying machine learning models to drive strategic business decisions.

EDUCATION

Universitas Padjadjaran <i>Bachelor of Informatics Engineering (GPA: 3.81/4.00)</i>	Sumedang, Indonesia 2023 – Present
• Relevant Coursework: Artificial Intelligence, Data Mining, Decision Support Systems, Numerical Methods, Database Systems, Object-Oriented Programming, Algorithm Strategies. • Key Achievement: Selected as Bakti BCA Scholarship Awardee 2025 (Merit-based scholarship).	
SMA Negeri 24 Jakarta <i>Science Major (GPA: 89.29/100)</i>	Jakarta, Indonesia Jun 2020 – May 2023

EXPERIENCE

Maybank Indonesia <i>Intern Strategist</i>	Jakarta, Indonesia Feb 2026 – Present
• Developing an interactive Streamlit dashboard extracting data from Refinitiv to track mutual fund and bond performance, optimizing product evaluation for Investment Specialists. • Engineering automated Excel templates utilizing VBA and Macros to build efficient sales support tools for investment products. • Conducting market research and formulating strategies to navigate volatile market conditions based on real-time economic data. • Designing educational content to increase public awareness regarding investment instruments and the Indonesian macroeconomic landscape.	
<i>Student Ambassador</i>	Mar 2024 – Present
• Organized a seminar on "Business Plan Competition Tips & Tricks" attended by 40+ students to introduce Maybank's brand. • Hosted a career preparation workshop (CVs & Internships) for 30+ students to promote the Maybank Student Ambassador program. • Building relationships with university students to improve engagement with Maybank's initiatives.	
Dicoding Indonesia (DBS Coding Camp 2026) <i>Data Scientist Cohort</i>	Indonesia Feb 2026 – Present
• Participating in an intensive bootcamp focusing on applied Data Science fundamentals for professional environments. • Developing practical technical and professional skills to execute data-driven projects in collaborative settings.	
SeaMoney (Shopee & SeaBank) <i>SPARK Student Ambassador</i>	Indonesia Jan 2025 – Present
• Running campaigns to teach students about SeaBank and the benefits of using ShopeePay. • Encouraging students to download and use SeaBank and ShopeePay apps. • Working with the SeaMoney team to promote the brand through social media and campus activities.	
PT Bank Central Asia Tbk (BCA) <i>Bakti Champions (Community Empowerment Project)</i>	Indonesia Apr 2025 – Sep 2025
• Created a digital bookkeeping system using Excel to help a local SME manage their finances better. • Trained the business owner on using digital tools to expand their market reach.	
Universitas Padjadjaran <i>Numeric Methods Teaching Assistant</i>	Sumedang, Indonesia Aug 2025 – Dec 2025
• Helped 40 students solve math and engineering problems using Excel and Python. • Guided students during lab sessions to implement algorithms in C++ and Python.	
<i>Computer Organization and Architecture Teaching Assistant</i>	Feb 2025 – Jun 2025
• Taught basic assembly programming to 40 students using NASM and DOSBox. • Assisted students in digital logic simulation labs using Tinkercad.	
ORGANIZATIONAL EXPERIENCE	
Informatics Festival (IFEST) 2025 <i>Project Supervisor of Technopreneur Division</i>	Sumedang, Indonesia Jul 2025 – Present

- Directed the end-to-end conceptualization of the Technopreneur program, successfully launching 2 core events (workshops and competitions) that engaged over 100 participants.
- Secured strategic partnerships with 9 external sponsors, generating Rp [Y] in funding to fully support event operations and logistics.

Himatif FMIPA Unpad

Head of Conceptor - Character Building Season 2025

Sumedang, Indonesia

Aug 2025 – Oct 2025

- Led a cross-functional team of 25 members to design the seasonal event framework, ensuring 100% on-time execution of the project schedule.
- Coordinated with the Public Relations division to onboard 10 industry speakers and high-profile alumni, driving an event attendance of [Y]+ students.

Secretary & Staff, Career Development Department

Feb 2024 – Dec 2025

- Streamlined departmental administration by managing 20+ official documents and correspondence, improving retrieval efficiency and organizational record-keeping.
- Facilitated the execution of 3 flagship career initiatives (Company Visit, Prepare for Future, Technopreneur), directly benefiting 90+ participating students.
- Managed the departmental Instagram account, increasing follower engagement by 15% through consistent curation of internship and career opportunity content.

PROJECTS

Driver Drowsiness Detection System | *Python, MediaPipe*

- Built a drowsiness detection model for the Data Slayer 3.0 competition using MediaPipe Face Mesh.
- Implemented dynamic thresholds for Eye Aspect Ratio (EAR) and Mouth Aspect Ratio (MAR) across 30-frame temporal sequences.
- Applied frame skipping and face cropping to optimize computational efficiency on large datasets.

Public Sentiment Analysis on KPK (X/Twitter) | *Python, Scikit-learn*

- Built a system to analyze public opinion about the KPK using Twitter data from 2015 and 2025.
- Created a Python script to collect data and processed it using NLTK and Sastrawi.
- Used Naïve Bayes and SVM models to classify sentiments with high accuracy (achieved ~85% F1-score).

Sentiment Analysis: Local vs. Imported Digital Products | *Python*

- Compared public opinion on local (Advan) vs. imported (Xiaomi) products using data mining techniques.
- Used LDA (Latent Dirichlet Allocation) to find key topics in user reviews, identifying distinct consumer perception drivers.

DataNiaga: Retail Decision Support System | *Python, LightGBM*

- Developed a system to help retail businesses make decisions using transaction data.
- Used LightGBM to predict sales for the next 10 weeks (achieved low RMSE) and FP-Growth for product recommendations.

GrowMate: Smart Farming Assistant | *Agile*

- Planned the "GrowMate" app project, including cost estimation using COCOMO II.
- Created the project schedule, risk plan, and work breakdown structure.

Illegal Parking Detection | *Python, YOLOv3*

- Built a real-time detection system using YOLOv3 to identify illegal parking for urban monitoring solutions.

HONORS & AWARDS

- **Bakti BCA Scholarship Awardee 2025**
- **SPARK Student Ambassador 2025**
- **Maybank Student Ambassador (2024 & 2025)**
- **2nd Place Japanese Language Olympiad, SMA/MA Level DKI Jakarta (2022)**

SKILLS

Languages: Indonesian (Native), English (TOEFL 600), Japanese (N2)

Programming: Python, C++, Java, JavaScript, PHP, SQL, R, Kotlin, Dart

Data Science & AI: Scikit-learn, Pandas, NumPy, NLTK,

LightGBM, YOLO, MediaPipe

Web & Dev Tools: Laravel, CodeIgniter4, HTML/CSS, Oracle, Git, Figma, Canva

Soft Skills: Leadership, Public Speaking, Critical Thinking, Teamwork, Adaptability
